

Simple Solutions.

Exceptional Experience.

Established in 1993, IAS Technology (formerly Integrated Audio Systems, Inc.) is an audiovisual systems integration firm dedicated to sales, design, installation, and service of professional audio/video systems.

We serve a wide variety of markets including corporate enterprise, higher education, medical simulation, command and control centers, conference and training rooms, house of worship, collaborative web-conferencing, streaming, and any other facility with audiovisual technology systems.

IAS provides worldwide audiovisual system solutions and service. IAS is recognized by the Audiovisual and Integrated Experience Association (AVIXA)® as an Audiovisual Provider of Excellence.

- \$1,500.00 for parts/upgrades/future purchases
- Additional unscheduled work orders at a discounted rate

Custom Package \$

- Priority scheduling
- ____ Preventative maintenance visits
- ____ Unscheduled work orders**
- \$_____ for parts/upgrades/future purchases
- Additional unscheduled work orders at a discounted rate

What is Included?

Scheduled Preventative Maintenance

These visits include a complete system check and can also include additional training for your technical team. Regular maintenance on minor items such as cable management, cleaning, lamps, and filters will be performed as needed. Firmware upgrades will also be addressed as required.

Unscheduled Service

A rewards package from IAS provides peace of mind. If a system or component fails, your included priority scheduling will allow you to address the issue quickly. This will maximize your system uptime giving the users a more positive and productive experience. Each unscheduled service includes up to one full day of labor.

Built-In Upgrades

Funds are set aside and allocated to cover the cost of parts required for service. At the end of the term, these funds can be used for the purchase of minor parts such as lamps, filters, microphones, etc. Upon renewal, any unused equipment funds will be carried over for future service parts or system upgrades.

* Clients within 2 hours of Peoria, IL

**Labor Only

IAS Technology also offers complete audiovisual solution design and installation along with custom maintenance and managed service contracts.

Several features of these service offerings include:

- 24/7 Phone Support and On-Site Service
- Remote Troubleshooting & Diagnostics
- Remote System Monitoring
- Data Analytics Reporting

Additional Offerings

"The service team at IAS is uniquely qualified to promptly handle the issues with our legacy systems. We are now looking at adding managed services with data analytics to minimize downtime and improve our enterprise standards" —Josh Mellican, AV/IT Specialist, Regional Healthcare Provider
